

The distinctive flavor of Budweiser comes from the genuine Sayer Hops used exclusively in making it. Its food value comes from fine, nutritious malt. Brewing and brewery cleanliness and pasteurization give it its germless purity. Few other beverages offer you as much as this in food value—no other food (liquid or solid) offers you more than this in purity and wholesomeness.

SCHOOL LUNCH IMPORTANT.

University Bulletin Gives Suggestions as to the School Lunch.

With the opening of school only a few weeks away, the busy mother is again soon to be confronted with the problem of her children's school lunch. To give her a few suggestions, the agricultural extension service of the University of Missouri has just issued a bulletin, "The Cold School Lunch."

A growing child at school must have plenty of good, wholesome food that is easily digested, says the bulletin. The less unnecessary tax put upon his digestive organs the more energy he will have to spare for mental work. The lunch should be carefully selected, keeping these general points in mind: (1) The child should have plenty of protein to keep him growing and this should be gotten from eggs and milk rather than much meat, (2) ripe fresh or cooked fruits should be a part of every lunch, (3) fats should be supplied in the form of whole milk, butter on sandwiches and egg yolks, fried food are hard to digest and should not form part of the lunch, (5) a few pieces of good, homemade candy may be given, and an occasional portion of a well made pie, (6) add vegetables to the lunch whenever possible.

Some wholesome lunches suggested by the bulletin are:

1. One chicken sandwich, one jam sandwich, one apple, one glass of milk, one small piece of cake (two graham or plain crackers and two apples for recesses.)

2. Brown bread and butter sandwich, cottage cheese sandwich, celery, one orange, nut and raisin cookies.

3. Ham sandwich, bread and butter sandwich, fudge sandwich, apple sauce, one glass of lemonade.

Another important thing to consider is the lunch container. The lunch should never be wrapped in newspapers, but put in tin pails, fiber boxes, baskets or the ideal but rather expensive thermos lunch box. Waxed paper, plain white paper napkins, seal tight jars or thermos bottle to carry semi-liquid foods and drinks are also important in packing the lunch.

Mow Those Weeds!

Have you mowed those weeds? Then your farm is worth more and you are a better neighbor and a better citizen than if you hadn't. Everyone thinks more of the farmer and farm if he sees the weeds neatly mowed as he drives along a well-dragged road. As he passes the end of the line fence he sees a fence row, not a weed row, and the same is true of the cross fence.

Does this describe your farm? Then rabbit shooting may not be so good on it next winter but buyers will offer you more an acre on it because they know it will take less work to make crops on it for a number of years than if all that weed seed had not been harvested. Weed seed is getting nearer ripe every day. The hot dry weather has hurried ripening instead of belating it. Bur pulling time is coming and the horse weeds in the fence rows are getting harder for the mower or scythe to handle, but there is some consolation in the thought that there is still time to do a great deal of good and that too early mowing might have let the weeds come up and make another crop of seed.

J. T. Caughen, who is employed left Saturday for their home graph Company as "troubleman" in this vicinity, will be transferred to Independence the 28th of August. Mr. and Mrs. Caughen went to Independence Saturday. Misses Mary and Matty Marquis went to Independence Saturday for a visit.

Swat the Chigger.

Touch each chigger bite with a brush that has been dipped in iodine or apply strong solutions of ammonia or common baking soda after itching has begun. The better plan, of course, is to prevent the chigger from getting a foothold at all. This may be done in a number of ways. A bath in hot water with strong soap is very good if taken immediately after passing through the shrubbery and weeds from which the chiggers are picked up, but the best real preventative is flowers of sulfur rubbed all over the body, particularly from the knees down. The sulfur may be made to stick better if mixed with a little cold cream and rubbed on.—L. Haseman, Missouri College of Agriculture.

Mrs. Fred Minch left Sunday afternoon for Richmond, Mo., where she will be joined by her sister, Mrs. James Joy and daughter, Miss Emily, together they will go to Council Bluffs, Iowa and Lincoln, Nebraska for a visit with relatives.

Mr. and Mrs. C. M. Truex and little daughter, Dorothy Adine, returned Saturday to their home in Sedalia, after a visit here with the family of C. C. Wright.

A BAKERY FOR ALL.

A bakery for all. By that we mean that the housewife may call upon us for anything she may need to set her table for any occasion. We are prepared with skilled labor and equipment to produce anything that may be wanted or that could be made in the home kitchen. We mention a few of our specialties, only a few, that may be had on short notice by calling Phone 399—Angel Food, Carmel Roll, Marshmallow Roll, Jelly Roll and Pies of any kind. The Snow-Flake Wrapped Bread, Vienna Bread, Rye Bread, Whole Wheat Bread and the Twin Loaves are all very delicious. The wagon makes trips to town each day, and when anything special is wanted. A. C.
